Deadline for Science and Technology Program is April 30, 2010. The requirements for applying for a Fulbright grant will vary from grant to grant; therefore, you must make sure that you are eligible to apply. Please visit our web site for further details www.fulbright.cl

Each applicant will be required to submit an online application at: <https://apply.embark.com/student/fulbright/international> along with all supporting documents.

STEP 2: Record user ID and password in a safe place

Your email address is your user ID. When you created an account for this on-line application, you created a password. An e-mail was sent to you indicating your User ID and Password. Keep this information in a safe place. You can log in and out of the application as frequently as you like; however, you must have your user ID and password. While you cannot change your User ID, if necessary, you can change your password by clicking on "Update My Account" at the top of the Home page of this application.

STEP 3: Complete the application

You do not need to complete this application at one sitting. You can re-enter at anytime and edit your application. But remember that once you submit your application, you can NO longer make changes to it.

All forms in this application are to be completed in English. Items must be answered completely and carefully.

Some helpful "tips":

- Avoid using all capital letters when answering items, e.g. name, address, etc. It is better to use upper and lower case, e.g. Ron Smith.
- You can copy and paste information into all text boxes.
- In the text boxes, you must **limit your responses to the space provided**. Information that exceeds the space provided will **not** display or print. If what you have typed or copied exceeds the size of the box, you must edit it. It is a good idea to 'preview' each page of your application to make sure that all your data displays.
- You can review each page of the application in its PDF format by clicking on the **Preview** button on the upper right-hand corner. Closing out of the PDF view will bring you back to your application.
- You will create essays on pages 4, 5 and 6. On the essay pages, text entered that exceeds the space provided **will display** and print. However, it is recommended that you try to keep your essays to one page when possible.
- You have several ways in which you can create your essays.
 - You can compose your essay on-line. Please note, there is a 40-minute 'time out' function. In other words, you will need to either complete your essay in 40 minutes or periodically save your essay. You will not be able to customize the formatting of your essay.
 - You can copy and paste text from another document and edit online. Again, you will have a 40-minute "time-out" function. You will not be able to customize the formatting.
 - You can upload text from another document. This is the only option where you will be able to have special formatting, e.g. bold, underline, headers, double spacing, etc. While you cannot edit an uploaded document on-line, you can delete your upload, make your corrections in your document off-line, and upload again.
 - Pages 4 (study objective) and 5 (personal statement) contain a header that displays on the PDF view. Therefore, you must leave a 1½ inch (4cm) margin at the top of every page of your essays to allow space for the header that will appear on the print version of your application.
- You should **preview** all of your essays to make sure the formatting is correct before submitting your application by clicking the preview button in upper right-hand corner of the screen. When you preview an essay, **you must use the "Back" browser button to return to your essay**. Closing out of the HTML preview (i.e. clicking the X in the upper right-hand corner) will exit you from your application.

- Some questions are 'required.' In other words, you will not be able to complete and submit your application until all required items are completed. When you click on the **Application Inspector** button on the Home page, your application will be checked for completeness. You will be prompted to enter any missing information on required questions.

Often specific instructions for completing a question or item will be provided in the application. Please read all instructions carefully. In addition, please review the following important information.

OTHER IMPORTANT INFORMATION

1. **Duration of Grants:** Fulbright grants and other fellowships, assistantships, scholarships and educational grants are generally awarded for nine to twelve months beginning in August or September. Candidates appointed to certain types of Fulbright grants may be required to arrive

during the summer for an introductory course or intensive English program prior to the academic year. In some cases, arrangements may be made for an extension of the period of grant beyond the first academic year. Candidates should not assume, however, that awards are automatically renewable.

2. **Duration of Degrees:** The length of your degree program may exceed the available funding and sponsorship limits of your Fulbright grant. The requirements for completing academic work toward a degree vary depending upon the degree desired, the candidate's academic background and the regulations of the individual U.S. institution to which the candidate is admitted. For the Doctoral degree, at least two to three academic years are required beyond the master's degree. However, many doctoral students find four or five years necessary, and in some cases even longer.
3. **Change of Plans:** You should promptly inform your Fulbright Program Office in Chile of any change in your academic status or future plans after your application has been submitted.
